SKILLS

- Kubernetes
- Docker
- Terraform
- Helm
- ArgoCD
- AWS
- GCP
- Prometheus / Grafana
- GitHub Actions
- Python / Bash

CERTIFICATIONS

CKA – Certified Kubernetes Administrator (2022)
AWS Solutions Architect – Professional (2021)
HashiCorp Terraform Associate (2020)

LANGUAGES

- English (Native)
- Irish (Conversational)

PROJECTS

Internal Developer Platform

Backstage-based IDP adopted by 200+ engineers; reduced onboarding from 2 weeks to 1 day.

CostGuard

FinOps tooling that automated AWS cost anomaly detection; saved €1.8M/year.

PROFESSIONAL SUMMARY

Experienced DevOps and Platform Engineer with 6 years specialising in cloud infrastructure automation, container orchestration and SRE practices. B.Tech in Computer Science. Passionate about reliability engineering, GitOps workflows and building developer platforms that eliminate toil.

WORK EXPERIENCE

Senior Platform Engineer

Stripe, Dublin

Oct 2020 – Present

- Architected multi-region Kubernetes platform (300+ services) with 99.999% SLA.
- Reduced infrastructure costs by €1.8M/year through spot instance optimisation and right-sizing.
- Implemented GitOps with ArgoCD across 15 squads; cut deployment failures by 72%.
- Built internal developer platform using Backstage; onboarded 200+ engineers.

DevOps Engineer

Accenture, Dublin

Aug 2017 – Sep 2020

- Automated AWS provisioning using Terraform; managed 600+ cloud resources.
- Built Jenkins and GitHub Actions CI/CD pipelines for 30+ microservices.
- Reduced mean time to recovery (MTTR) from 4 hours to 23 minutes.

EDUCATION

B.Tech – Computer Science

University College Dublin (UCD) · 2013 – 2017 · First Class Honours, GPA 4.0/4.0

Higher Diploma – Cloud Computing

National College of Ireland · 2018 · Distinction
