PROFESSIONAL SUMMARY

Mechanical Engineer with B.Tech and 5 years specialising in product design, FEA simulation and manufacturing process improvement for automotive and consumer electronics OEMs. Proficient in CATIA V5, SolidWorks and ANSYS. Lean Six Sigma Green Belt with strong cross-functional collaboration skills.

WORK EXPERIENCE

Product Design Engineer | Mahindra & Mahindra, Pune

Sep 2020 – Present

- Designed suspension component reducing part weight by 15% while maintaining FEA safety factor >2.0.
- Led DFM review for XUV 700 door assembly; cut tooling cost by INR 3.2 Cr.
- Coordinated DFMEA and DVP&R processes with quality and testing teams.
- Filed 2 design patents; one granted in 2023.

Graduate Trainee Engineer | Bosch India, Bengaluru

Jul 2019 – Aug 2020

- Assisted in root-cause analysis of fuel injector failure; reduced field returns by 28%.
- Supported 3D tolerance stack-up analysis using CATIA Tolerance Analysis Advisor.

EDUCATION

B.Tech – Mechanical Engineering

NIT Warangal | 2015 – 2019 | CGPA: 8.7/10

Green Belt – Lean Six Sigma

Indian Statistical Institute | 2020 | Certified

SKILLS

- CATIA V5 / V6
- SolidWorks
- ANSYS FEA
- AutoCAD
- GD&T
- DFMEA
- Tolerance Analysis
- Lean Manufacturing
- BOM Management
- PLM (Windchill)

CERTIFICATIONS

CATIA V5 Professional (2020)
ANSYS Fluent Fundamentals (2021)
Lean Six Sigma Green Belt – ISI (2020)
